

If You're Not Using MICROFLEX® Quality Hand Protection,

You Could Have A Serious Risk On Your Hands.

Everyday, funeral service professionals face serious health hazards. Blood borne disease transmission or chemical exposure can occur during embalming and regular funeral preparation. Exposure can result in severe or life-threatening illness.

Microflex, The Most Trusted Name in Gloves®, understands these risks, and offers a quality line of hand protection for the conditions found in the mortuary environment.

¹ Safe Grip
Powder Free Latex

- Low modulus latex allows for enhanced manual dexterity and lessened hand fatigue over extended periods of wear.
- Nitrile, the synthetic alternative offers a higher level of strength with greater oil and chemical resistance.
- Textured surface assists better gripping of instruments in both wet and dry conditions.
- Integrated polymer technology creates a smooth surface for easier donning in all conditions.

²Free Form
Powder Free Nitrile

¹Synetron
Powder Free Latex

²Supreno Plus
Powder Free Nitrile
